Moulin **Bourgeois**

EDITORIAL

”

Welcome to our catalogue.

Here you will find a wide range of conventional and organic flour and other ingredients to create a homemade bakery range with its own distinctive character, pastries that set you apart and appeal to your clients.

We have been deeply involved in **organic agriculture** for a long time. This has allowed us to establish **valuable** and lasting connections with farmers who prioritise the quality of their production and its impact on the environment.

All of these products are carefully sourced. The cereals are 100% French, and are either EQB, Label Rouge or Organic Label certified.

All our flour is either stone ground or roller milled by us in Verdelot. One mill is dedicated to organic milling.

Our sales team is at your disposal for any additional information.

David and Julien Bourgeois

OUR ENGAGEMENTS

- Flour produced from cereals exclusively grown in France.
- Traceability from the moment the grain enters the mill through to when the flour is delivered.
- Certified flour.
- Complete control over our recipes and their development in the pursuit of quality and taste.
- Values and expertise of a family-run business dedicated to artisans.
- Extensive organic range with carefully selected partners in France.
- Partnership with local farmers for the preservation and development of heirloom seeds in organic agriculture.
